Skills

Languages: C, Java, JavaScript, SQL

Technologies & Tools: React.js, MongoDB, Node.js, Express.js, SLQ, Git, Github, Vercel

Work Experience

Frontend Specialization

Web Development Journey

2024 – Present

- Transitioned to web development with HTML, CSS, JavaScript, and React.js.
- Built and deployed HobbyHub, Tour Package Booking Management Platform, and others.
- Used Tailwind CSS and DaisyUI for modern, responsive UI design.

Full-Stack Development

Technical Skills Expansion

2024 – Present

- Built back-end services using Node.js, Express.js, and MongoDB.

Education

Daffodil International University

B.E. in Software Engineering, CGPA: 3.21/4.00

Jan 2024 - Dec 2027

Relevant Coursework: Object-Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advanced Data Structures and Algorithms, Information Retrieval, Image Processing

Projects

HobbyHub: A MERN stack web platform where users can discover, create, and join hobby-based groups such as painting, cooking, or coding. Features include Firebase authentication, private/protected routes, group creation, joining/leaving groups, and a personalized "My Groups" dashboard. Built with React.js, Node.js, Express.js, and MongoDB to foster local communities and encourage engagement.

AtlasWay: A full-featured Tour Package Booking Management Platform built with the MERN stack and Firebase Authentication. Users can explore tour packages, book trips with notes, and manage reservations, while admins can add or update packages. Includes protected routes, booking status tracking, and a fully responsive UI built with Tailwind CSS and DaisyUI.

Awards and Certificates

Courses: MERN stack development (ProgrammingHero)
